

C.P. Technology launches PowerMate series for emerging Flash Media market in Computex 2002

TAIPEI, TAIWAN (May 29th, 2002) –C.P. Technology announces a new series of Flash Media products under its brand name “PowerMate” target for the emerging flash media market in Computex 2002 Taipei.

For the PowerMate series, the 3.5" Flash Media Drive, designed with the concept for “ Desktop Value-Added Solution ” , the 3.5 " floppy-size Flash Media Drive is an alternative solution to innovate for the Media PC in replacement of the floppy drive. The 3.5 inch Flash Media Drive supports 6 popular types of flash memory like Compact Flash 1 & II , SmartMedia, IBM MicroDrive, Multimedia Card, Secured Digital and Memory Stick. With the growing number of Flash memory utilizing in PDA, MP3, Digital Cameras etc., the Flash Media Drive is a good connectivity for images, music and data between the media and desktop. This new concept was promoted by Intel Lecta Concept Platform for its Media PC system in the System Builder Summit Europe Spring 2002.

The Docking Media Drive is another innovation to the Media PC. It provides the same features of a Flash Media Drive but with docking capabilities. The docking storage detachment is a compact & light weight for easy travel with embedded USB cable to provides Drag and drop transfer, Read & Write Capabilities for digital media card .. (CF/Micro Drives/SM/SD/MMC/MS Card), Driver-less, Real time Plug n Play. It provides an easy and portable for access to the desktop or via the USB port to portable PC.

An innovation product and world ONLY one 6-in-1 Media Player ! This is a stand-alone Multimedia Player or via USB port able to view digital pictures/images from memory card on TV, watch digital short films from memory card on TV, listen to MP3 music from memory, 6-in-1 Card Reader/Writer from/to memory card with data transfer speeds of up to 12Mbps via USB port to PC. This is an ideal complement to a digital camera, MP3 player, scanner, photo printer , good companion to TV set, projector and speaker. The All-in-one design supports 6 kinds of media cards including SmartMedia, SD, MMC, Memory Stick and type I/II CompactFlash (also IBM Microdrive). It also includes remote control for TV-viewing .
